

Guildford/Woking to London Waterloo

REVISED from 4 April to 11 June 2005

Following further feedback from our passengers on the new timetable introduced last December, some Monday to Friday services are to be revised from Monday 4 April.

KNOW WHAT'S HAPPENING...

Train times are changing.

Since 1967, the South West Trains' timetable has remained essentially the same apart from minor tweaks published twice a year.

Now **every** train on **every** route is to be rescheduled with new train times, offering the majority of passengers more peak-time services, more frequent departures from the busiest stations and more easily remembered standardised departure times.

You will need to familiarise yourself with the new train times and our range of free pocket timetables is an excellent point of departure, detailing in full our new services on all routes.

This pocket timetable shows the full service between Guildford, Worplesdon, Woking and London Waterloo via Surbiton and Clapham Junction.

For an even more convenient summary of services, consult our new free mini-guides which easily fit into a wallet, purse or ticket holder. These now include weekends too.

Mini-guide routes relevant to this timetable are:

- Guildford to London Waterloo - No 52
- Woking to London Waterloo - No 53
- Woking to Heathrow Railair - No 54

These publications are available from staffed stations.

KNOW THE ADVANTAGES...

Our new train times mean you could gain:

More morning peak trains into London Waterloo

Extra departures from many of the busiest suburban stations

Easy to remember standardised departure times

Faster recovery from service disruption

Better use of the new Desiro train fleet

THINGS YOU NEED TO KNOW

Why train times can change

Essential engineering works often affect late evening and weekend travel. Weekday trains that might be affected will have note 'E' at the top of the appropriate column in the timetable.

Services are also likely to alter during Public Holidays.

With this in mind, please check your train times before travelling during these periods.

Making the connection...

This timetable shows your connecting services in *light italic type*. **Bold type** indicates through services. Remember, you need to allow enough time to make your connection. To help you, numbers alongside a station name in this timetable show the minimum time in minutes (e.g. **10**) that you should allow for your connection but always allow at least 5 minutes between trains.

Why we impose Penalty Fares

To protect our honest passengers, South West Trains operates a penalty fares scheme. Fare dodgers will be liable to a penalty of £10 or twice the single fare to the next station (whichever is the greater).

Re: Cycling

The services in this timetable have limited room for cycles. You can check before you travel by referring to the notes at the top of each column.

The following symbol ★ and times printed in red indicate restrictions which will be explained in the footnotes.
